

BSCN Autumn Scientific Meeting and AGM

Friday 16th October 2015

**33 Queen Square, The National Hospital for Neurology and Neurosurgery
London, WC1N 3BG**

PROVISIONAL PROGRAMME

9:00	Coffee
9:15	Variability in upper limb nerve conduction data by ethnic origin. C Yong
9:35	A case of PRODH-mutation positive Hyperprolinaemia Type 1 presenting as early onset BECCTs-like seizures. G Payne
9.55	Does the site of Median nerve motor stimulation at the wrist matter? S Frielich
10:15	Human Neuronal HCN function in health and disease: A Review C Moore
10:35	Coffee
11:05	Invited Lecture Translational neurophysiological biomarkers in drug discovery Professor Martin Koltzenberg
11:50	Invited Lecture Neuronal calcium channels and their relationship to neuropathic pain. Professor Annette C Dolphin PhD, FMedSci, FRS.
12:35	Medical Student Essay Prize Alex Goodliff, Bristol
12:45	Lunch

13:35	AGM
14:20	A Clinical Effectiveness Study of Visual Evoked Potentials at a Tertiary Neurology Unit S Mann
14:30	Coffee
14:55	Invited Lecture Chronic Regional Pain Syndrome Dr Andreas Goebel
15:40	Small fibre neuropathy: Survey of diagnostic ability and guideline for diagnosis C Moore
16:00	Somatosensory evoked potentials to painful and painless electrical stimulation (SSEPs). A tool for the clinical assessment of neuropathic pain pathways. R Guiloff
16:20	The relationship of nerve fibre pathology to sensory function in entrapment neuropathy. A Schmid
16:40	Close
